Inline text in column 2 row 1 does not fit in page causing page break. Inline text passes orphan requirement therefore page break would typically occur in Row 1 after 2 lines of text in Col 2, however, td page-break-inside avoid is respected. Given the row is the first table row the entire table is moved to the next page.

Col1 Heading	Col2 Heading	Col3 Heading
Row1 Col1 Line1	Row1 Col2 Line1 Long text that meets the orphans 2 line minimum	Row1 Col3 Line1
Row2 Col1 Line1	Row2 Col2 Line1	Row2 Col3 Line1
Row3 Col1 Line1	Row3 Col2 Line1	Row3 Col3 Line1
